Madden (Sir F.) Transcripts and Notices of Manuscripts (XI-XIV Century) of old English Prose and Poetry, AUTOGRAPH MS. forming a thick volume, sm. folio, £5. 5*s*

A most valuable collection. The early English Poetical pieces are of the highest value.

As it would require a larger amount of time and space than can be devoted to a bookseller's catalogue to enter into the details of this important collection, it is necessary here to point out the value, and to summarize the contents of Sir Frederick Madden's Autograph Manuscript Collections. In a few words, we have here the reflex of the mind of our greatest Palæographer, who added to a rare discrimination and accurate scholarship, an almost superhuman industry, the result of which, is these valuable historical and antiquarian memoranda, collected during the examination of a vast number of MSS. and the use of such opportunities as may never occur to another palæographer. The Antiquary, the Genealogist, the Philologist, the Palæographer, and the Bibliographer, have here an opportunity of securing such information as may never again be presented to their notice.

This interesting publication is the rival of the celebrated Bengal Journal, both in its rarity and in its importance to scholars. The articles are equally varied and ably written, the papers on Natural History, Mythology, Antiquities, and Ethnology being especially valuable, and written by the most distinguished men.

Some of the later numbers as well as the early ones are extremely rare. No. 39 was never published; the First Series ended with 38, and by a mistake the second began with No. 40 instead of 39.

—— the same, Vols. I, VII, VIII, X, XI, XII, 6 vols. small 4to. *vellum*, £2. 10*s* 1791-95
The above interesting collection of Periodical Writings is of the greatest rarity. Thorpe, in one of his Catalogues, states that a gentleman had assured him he could meet with but one copy in his travels through Spain, for which he was asked upwards of £30.
It is generally found defective, and copies vary to a considerable degree. The third copy described above is no exception to this rule; it wants, besides, Vol. V Nos. 333, 4, in Vol. X, which are very frequently absent. Some Nos. have been omitted, while the pagination remains correct; and sometimes there are two with the same No., although the text runs on correctly. The last part of Vol. XI is number 382, yet the first of Vol. XII receives the number 573, from which the numeration proceeds to the end (No. 611), although nothing is deficient. Nothing is known to be wanting in the first two copies. The periodical seems to have been produced under great difficulties and discouragements; it was suppressed by the Spanish government, as the enlightened opinions which the French Revolution had first set afloat were winning popularity amongst the educated youths of Spanish Peru. There is something of bitterness in the title of the last volume, which is stated to be "dado a luz por uno de los individuos de la Sociedad."

A GENUINE EARLY COPY. This is undoubtedly the most magnificent work that has issued from the Parisian press. At the Exhibition of 1819 the gold medal was granted to M. Henri Laurent, the jury considering this work as the most perfect that had ever been published since the existence of engraving. It is necessary to observe that it is not merely a collection of prints, as it contains many luminous and masterly dissertations upon the state of the arts in different ages, observations upon the style, excellence, and defects of the various schools in painting, a minute description of every painting, etc. drawn with extreme care and correctness.

Myvyrian Archaiology of Wales, collected out of Ancient Manuscripts, (by OWEN JONES), 3 large vols. 8vo. *bds. uncut*, £10. 1801-7

"Of all the labourers in the field of Celtic antiquities, none deserves more honourable remembrance than Owen Jones, the poor peasant of Myvyr, who, unassisted by patronage, devoted his life to the preservation of the literature of his country. He came up to London, a poor boy, engaged as a clerk in some city establishment, and after forty years of self-denial, with the accumulation of his scanty earnings, published the Myvyrian Archaiology, at his own cost, in 1801 and 1807. It was a work which might have been done by a king, an institution, or a society of the noble and the learned; but it was accomplished, and scrupulously accomplished by a poor Welsh peasant"

at the expense of the late Duke of Buckingham, for presents only, boards, uncut, £40.

Buckinghamiæ, 1814-26

No copy of this extremely valuable work has been sold for the last few years; the price therefore has much risen.

Only 200 copies were privately printed at the expense of the late Duke of Buckingham.

The expenses incurred by the Duke of Buckingham for the researches and for the printing of these four volumes exceeded the sum of £3000.

These volumes consist of Latin translations of the Hiberno-Celtic MSS., formerly in the Library of Stowe, but now added to the literary treasures of Ashburnham House, near Hastings; the Earl of Ashburnham having purchased the whole of the Stowe Collection of MSS. Dr. O'Conor refrained from inserting any work which had already been printed, and indeed the entire series may be said to consist of important additions to the history and antiquities of Ireland, most of which were only previously known to us by name. For contents of this most valuable work, see Brunet, vol. iii. p. 548.

"Undoubtedly a collection of materials in the highest degree precious for the information they supply with regard to the history both of Ireland and other British Kingdoms."

Pictorial History of England.

"The publication by *Dr. O'Conor*, of the Irish Chronicles in their original language, accompanied by a Latin translation and explanatory notes, has for the first time put the world in possession of the means of judging for itself of the truth and value of documents which had before only been known through reports of modern Irish writers, conveyed in all the vagueness of illusion, and mist of paraphrase." MOORE'S IRELAND, Vol. I.—*Lardner's Cyclopædia.*

"Whether we consider the learning of O'Conor, the value of the materials, or the princely munificence of the Duke of Buckingham, at whose expense it was produced, it is without a parallel in modern literature."—*Sir F. Palgrave, Rise of the English Commonwealth.*

ORNITHOLOGICAL ILLUSTRATIONS collected during a long series of years and at an enormous expense by MONS. O. DES MURS, THE CELEBRATED ORNITHOLOGIST. They contain representations of nearly three thousand Species, all most exquisitely coloured, extracted from about 40 valuable works, such as Scientific Voyages, Monographs and Transactions of the British and Foreign Learned Societies, whose titles are here given, and from which will be seen the expensive works that have been sacrificed for the sake of the Illustrations. In addition to the intrinsic worth of the plates, the labour bestowed upon this collection by the late owner must be of the highest value to an Ornithologist or to a public Scientific Library: the whole of the plates have been cut out and mounted on superfine drawing paper, of uniform size, and each leaf bears the name of the Class, Family, Sub-family, Habitat, Authority, and the names of the publication or Scientific Voyage from which it has been taken, forming such a matchless collection as has never occurred for sale,—the entire collection being contained in eighteen paper cases, with 8 folio and roy. 4to. vols. and 1 vol. 8vo. of Text, *hf. bound,* offered a bargain for £150.

Romances Varios de diferentes authores nuevamente impressos por un curioso, 12mo. THICK PAPER, *red morocco extra, gilt edges, by Bedford,* £8. 8*s* *Amsterdam,* 1688

This Romancero, or Book of Spanish Ballads, is excessively rare and very little known. Ticknor and Salvá do not mention it; and Brunet had cognizance of only one copy which was sold in Libri's sale, 1859. The name of the *curioso* does not appear; but the publisher was a Portuguese Jew at Amsterdam, and there is amongst the preliminary *canciones* one which is in the Portuguese language. The headings also are occasionally in Portuguese, and the taint of Lusian orthography is seen in the Ballads themselves.

Unpublished Metrical Romances, belonging to the Arthurian Cycle, by an English Trouvère, Hugo de Rutland of Credenhill in Cornwall, circiter A.D. 1190, 2 vols. in 1, folio, *russia gilt,* **£210.**

ROMAUNCE DE IPOMODON, et ROMAUNCE DE PROTHOLAUS, roys de Poille, (*i.e. Apulia*) EN VERS, folio, **OLD ENGLISH MS. ON VELLUM,** *with an ornamental initial and small Miniature at the beginning of the Protesilaus, Written by John of Dorkingge, about A.D.* 1300

The author, a contemporary of the more famous Walter Map, is mentioned as Hugh of Cleveland at the end of the Hippomedon (the Chyld Ypomydon of Warton and the old balladists), and as Hugh of Rotelande at the beginning of the Protesilaus. The latter appears to be his proper designation. Both these Chansons de Geste, in which old Greek names are fitted to a mediæval romance of chivalry, have a connection with the Graal legends, King Arthur being represented as reigning in France. They are excessively rare, although they must have been popular since an abridged English version of the Ipomydon was printed by Wynken de Worde, and is quoted or embodied in various collections of Early English Romances. There seems to be only one copy of the Hippomedon in English collections (in the Cottonian MSS. British Museum), and one of the Protesilaus in the Bibliothèque Nationale at Paris. I cannot find mention of any other copies than these, perfect or imperfect. About two leaves are wanting at the beginning of the above interesting MS., but there is apparently no other imperfection. The versification of the stories is easy and felicitous; the language is philologically curious and interesting.

LANCELOT DU LAC, le premier livre du Sainct Graal, **MS. ON VELLUM,** *containing the portion of this old prose Romance which extends from the setting forth of Agravain to seek Lancelot, to the stay of Lancelot in the castle of the Lady who promised to shew him the most beautiful thing in the world,* 107 *pp. closely written in double columns, at the end of the above Metrical Romances, by the same scribe, (John of Dorking)* *cir.* 1300

Perhaps it was death which put a sudden end to the Lancelot MS., as it ends abruptly on the obverse page of a leaf, the reverse remaining blank. It comprises about a sixth part of the entire Romance, but is of incalculable value for its text, by which the printed editions are shewn to be faulty and imperfect. The redaction, which was compiled about 1470, and used for publication, not merely alters the phraseology to suit the fashion of the time, but also omits much which was considered obsolete or unintelligible. The above fragment is literally an article of the utmost intrinsic interest and worth.

Romances, Villancicos, Seguidillas, RELACIONES HISTORICAS, JOCO-SERIAS, MISTICAS Y CURIOSAS, COPLAS DIVINAS, etc. A collection of 124 pieces, the greater part in Spanish and the VALENCIAN DIALECT, and illustrated with curious woodcuts, composed by Jean Perez de Montalvan, Eugenio Gerardo Lobo, Juan Cabeza, Pedro Calderon de la Barca, Antonio Enriquez Gomez, Juan Garcia Valeros, Agustin Moreto, Juan Bautista Diamante, Fernando Zarale, Tirso de Molina, Lucas del Olmo Alfonso, Simon de Roxas, Joseph Garcia, Juan de Olmedo, Bernardo Delos, Pedro Sanchez, Alonso de Castilla, Marcos Brizuela, and other celebrated Authors.—in 1 stout vol. sm. 4to. *vellum, very rare and curious,* £7. 10*s* *Madrid, Valencia, Sevilla y Salamanca,* 1758-60

"The Journal consists of two distinct sections: the one devoted to General Botany, the other to the Botany of the British Isles. In both divisions Original Papers on subjects new to Science are given, and when necessary, illustrated either in the text or by special Plates. Each number contains a full-page plate by Fitch, illustrative of New Species described in the letter-press. Original Communications of necessity relate to the different sections of the Science, and form the bulk; yet Structural, Morphological, and Physiological Botany are attended to. Nor is Geographical nor Palæontological Botany neglected. The Editor specially watches over this, the important portion of the Journal, and he confidently hopes that the excellence of these communications will make this Journal a Standard Work, and obtain for it a circulation where otherwise it would be unknown. . . . Bibliography will also receive attention, not only in Reviews, but in Systematic Lists, accompanied with short Critical Notices."—*Prospectus.*

"Mr. Roach Smith has brought to his task a thorough and familiar acquaintance with the writings of Roman and Greek authors, which enables him to interpret at a glance the significance of isolated and otherwise inscrutable facts and allusions. But besides these acquirements he possesses an enthusiastic spirit, which has neither been daunted by opposition nor chilled by indifference: and to this we owe the results recorded in his splendid volumes. How many thanks are due from all historical and antiquarian enquirers to Mr. Roach Smith for his public spirited labours! Fortunately, he needs no other memorial than his greatest work to attest his labours and services."—*Leicester Chronicle.*

Best edition of this famous chronicle. It was composed probably in the thirteenth century, and exhibits at once the character of a faithful history, of a great prose-poem, and of a romance of chivalry. "It is overflowing with the very spirit of the times when it was written, and offers us so true a picture of their generous virtues, as well as their stern violence, that it may be regarded as one of the best books in the world, if not the very best, for studying the real character and manners of the ages of chivalry."—*Ticknor.*

—— another copy, 12mo. *red morocco extra, gilt edges, by Bedford*, £2. 2*s* 1843

Of the Collection intitled "Cancionero de Obras de Burlas provocantes a Risa," Valencia, 1519, 4to. there is only one copy known, which is in the British Museum. It begins with one very long poem, and ends with another; the last being a brutal parady of the "Trescientas" of Juan de Mena. The shorter poems are by well-known names, such as Jorge Manrique and Diego San Pedro, and are not always liable to objection on the score of decency; but the general tone of the work, which is attributed to ecclesiastical hands, is as coarse as possible.

The above edition of it, printed at London in 1841, has a curious and well-written preface, and a short, but learned, Glossary. From p. 207 to the end p. 246, are a few poems not found in the original Cancionero de Burlas; one by Garci Sanchez de Badajos, one by Rodrigo de Reynosa, &c. *Ticknor*, 1849, Vol. I, p. 404.

"The first edition was published at Madrid in 1617 according to Navarrete, who probably is mistaken when he says that it was reprinted at Brussels in the same year; at least I am not aware of the existence of any Brussels edition of an older date than the present one."

"All agree that this work of Cervantes, although inferior to *Don Quixote* in invention and critical acuteness, has a more finished plan, and is written in a more equal and elevated style. In this he corrected several defects of language and construction, which exist in his more celebrated work, and deviated from the Latin mode of composition, adopting the simple and more natural style, to which the Spanish language was then tending.—The dedication of this work, written after a long and painful illness four days before his death, is justly regarded as a most perfect expression of gratitude and of serenity."—*Salva.*

This edition has no mention either of the printer or the place of impression, and the two parts are separately paged. It is therefore different from the edition of the same lately described in the Salvà sale-catalogue. In spite of the name that is given on the first title, as above, and of the name of Gaston Daliso de Orozco, that appears on the title of the second part; and again of the fact that this curious satire is incorporated in the collected works of Jacinto Polo; it is still uncertain to whom the authorship is properly to be referred.

Explanatory notes and remarks are supplied with great diligence to all the passages over which time may have thrown any obscurity; and the critical observations that are prefixed to the more considerable productions, are, with a reasonable allowance for an editor's partiality to his author, very candid and ingenuous."—*Edinb. Sine loco et typ. nom. [*Lovanii, J. Veldenar*] 1477

This rare edition is ascribed by Brunet to Veldener's press at Louvain, but this cannot be done with certainty. The collection of the letters of Æneas Sylvius forms an extremely interesting miscellany. It combines the features of a history of his own times with the attractive character of the "Curiosities of Literature." The frequent references to the Turks and the state of the Christian border-lands give the volume a further interest.

WALTON'S (Elijah) VIGNETTES: ALPINE AND EASTERN, with Descriptive Text by T. G. Bonney, M.A., F.G.S., Tutor of St. John's College, Cambridge, 1 vol. sm. folio, (pub. at £4. 4*s*) *cloth,* £3. 10*s* 1872

"Vignettes: Alpine and Eastern," consists of Twenty-four elegant Views, in Vignette, each of which has been carefully selected from a very wide range of subjects on account of some special beauty, the whole Series embracing the choicest results of many years' travel.

The original Pictures, painted by Mr. Walton expressly for this work, were finished with a direct view to their reproduction by Chromo-lithography, in the highest style in which the art is capable. The rich variety of subjects is shown in the subjoined List of Plates; and as the Chromo-lithographs are of equal excellence with those of the "Flowers from the Upper Alps," and "The

Coast of Norway," the Publisher trusts he has succeeded in rendering VIGNETTES: ALPINE AND EASTERN, *one of the most beautiful Gift Books ever published.* No pains or expense has been spared to accomplish this end, and to make the Views, as nearly as possible, actual facsimiles of the original Water-Colour Drawings.

WALTON'S (Elijah) THE BERNESE OBERLAND: Twelve Scenes among its Peaks and Lakes, with Descriptive Text by T. G. Bonney, M.A., F.G.S., Fellow and Tutor of St. John's College, Cambridge. One vol. impl. folio, (pub. at £4. 4s) *cloth*, £3. 10*s* 1873

"THE BERNESE OBERLAND" will consist of Twelve Views selected from a number of Drawings made by Mr. Walton in the Summer and Autumn of 1872. During the last three or four years, the Bernese Oberland had been so frequently suggested, both privately and by the Press, as a desirable field for illustration by Mr. Walton, that he was induced to visit the country again last year, in execution of a commission having special reference to this work.

The List of Views is given below, and it will be seen that half of them are Vignettes, while throughout as great variety as possible has been studied both in the subjects and treatment of the Drawings.

The Chromo-lithographs will be of precisely the same quality as those in Mr. Thompson's former publication, of which, to quote only one authority, the *Times* said—of those in "THE COAST OF NORWAY:"—"They might at a short distance be taken for Water-Colour Drawings;" and of "VIGNETTES: ALPINE AND EASTERN,—"We can scarcely believe the colours to be printed from a stone, and not laid on by the brush."

As in former Works, no pains or expense will be spared to make the Chromo-lithographs as nearly as possible facsimiles of the original Drawings. They will be rather larger than those in "The

Coast of Norway," and about twice the size of "Vignettes: Alpine and Eastern."

LIST OF VIEWS.

No set of this valuable but complicated periodical has occurred for sale at any of the public auction rooms during the last few years. The trouble of making up a set is immense, as some of the volumes, such as those illustrating Cruikshank, Old and New London, and others, have been cut up to illustrate separate books. The above is believed to be a perfect set with the exception of the 2 vols. (not detailed above,) of "London Review," published in 1835-6, the value of which, beyond their scarcity, is very trifling. In the series of London and Westminster Review, published between 1836 and 1840, a gap occurs, Vols. 30 and 31 having been accidentally skipped.

Except for those who are acquainted with this work, it is impossible to conceive what an exceedingly curious and interesting Ecclesiastical History of Great Britain is formed by this voluminous collection of documents. It will be a recommendation, perhaps, to some readers, to state, that the chief portion of the two latter volumes, are in English, and in the precise orthography of the original records. It is a magnificent book.

The series of Drawings, of which a selection is given in the present work, was undertaken with the object of preserving a faithful record of the living characters of the most rare and interesting Animals in the Vivarium of the Zoological Society of London.

The Drawings have been executed in Water-Colours, after most careful study, by Mr. Wolf, who may be fairly said to stand alone in minute knowledge of the habits and forms of Mammals, as well as Birds; and the Lithographic copies, partly printed in colour and then finished by hand, are in such exact facsimile as to be scarcely distinguishable from the originals. The Letter-press prepared by the Editor, embraces all particulars of interest relating to the general history, habits, distribution, and use of the Animals illustrated in the Plates.

This Journal commenced in March 1824, and closed in 1834, when five volumes and a supplement had been published. It may be considered the precursor of the Proceedings of the Zoological Society, to which it forms a valuable companion. The articles are of the highest standard, and were written by such naturalists as Bell, Berkeley, Blackwall, Prince Ch. Bonaparte, Broderip, Buckland, Children, Curtis, De la Beche, Deshayes, Fitton, Gould, General Hardwicke, Horsfield, Sir W. Jardine, Kirby, Leech, Richardson, Samouelle, J. and G. This is the most important and trustworthy of all the works that exist on the interesting subject of Medieval Costume. The ideas of most people, in this respect, are extremely vague, being derived from pretty picture-books of fancy figures, in which nothing like precision or scientific treatment is ever met with. Indeed, Hefner's work may almost be called the only safe guide in this branch of Archæology, which ought to be so attractive to the painter and to the general student of history and manners.

New York, 1873

This bibliographical handbook, embracing a collection of about 1800 works, may be considered the chief, if not the only one of its kind. The author's notes are judicious and valuable, and have an interest beyond even the actual subject of the Essay. Collectors of Americana of every kind will derive pleasure and profit from a labour that evinces a wide range of study and experience. The occasional inaccuracies that appear in the transcription of titles in foreign languages seem to be merely typographical.

Similar volumes have been issued to Subscribers by LIÈVRE of the Art Treasures of ENGLAND and FRANCE. This superb volume of the "**ART TREASURES OF AUSTRIA**" surpasses its rivals for the beauty of its contents and the superior execution of the engravings.

"Mr. Maynard's descriptive and historical notes are carefully and succinctly compiled and written. . . . The book is more than a history of the Arundel Society and an account of its labours. As containing a series of memoranda of noble productions it is extremely valuable."—*Extract from the Athenæum of April* 24, 1869, *on the first edition.*

Avesta: THE RELIGIOUS BOOKS OF THE PARSEES, from Professor SPIEGEL'S German Translation of the Original Manuscripts by A. H. BLEECK, 3 vols. in 1, 8vo. *cloth,* £1. 5*s* 1864

English scholars, who wish to become acquainted with the "Bible of the Parsees," now for the first time published in English, should secure this copy.

To Thinkers the "Avesta" will be a most valuable work; the opportunity is thus afforded to compare its teachings with those of the BIBLE, the KORAN, and the VEDS.

"A religion which is probably as ancient as Judaism, and which certainly taught the immortality of the soul and a future state of rewards and punishments for centuries before those doctrines were prevalent among the Jews,—a religion which for ages prior to Christianity announced that men must be pure in thought as well as in word and deed, and that sins must be repented of before they could be atoned for,—a religion whose followers were forbidden to kill even animals wantonly, at a time when the ancestors of the French and English nations were accustomed to sacrifice human victims to their sanguinary Deities, such a pure and venerable religion is one which must always command the respect of the civilized world, and of which a Parsee may well be proud."—*Preface.*

CHRISTIAN ART BY THE OLD GERMAN MASTERS.

Boisserée Gallery now at Munich,

GALLERY OF THE OLD GERMAN MASTERS, formerly at Stuttgart, in the Possession of the Brothers BOISSERÉE, now removed to Munich, 120 *superb Plates, executed under the direction of* STRIXNER, *engraved in lithography, heightened by tints, and so admirably done as to be scarcely distinguishable from the most perfect line engravings, mounted and ruled on drab-coloured drawing paper,* elephant folio, quite COMPLETE, *with title and Table of Contents,* (pub. at £105.) *half bound red* MOROCCO, *gilt back,* £21. *Stuttgart und München,* 1821-36

Published at £105. Priced, in 1841, H. Bohn, £63. In 1825 a copy fetched at Sotheby's £40.; 1860, Scarisbrick's, £28. 10*s*; 1863, Lord Farnham's, £34.

To all engaged in the study of Christian Mythology and Christian Art, to all Painters and Sculptors, the Boisserée Gallery is of especial interest as no where else can be found such faithful representations of the ecclesiastically accepted portraits of Christ, the Holy Family, the Apostles, and the Saints of the Christian Church.

In no other paintings is found expressed the same religious feeling and depth. The alphabetical Index of subjects facilitates research as several portraits have been treated with variations by different artists.

publié, et qui fait maintenant partie de la galerie royale de Munich, se compose de 320 morceaux; mais l'ouvrage que nous annonçons ne presente qu'un choix des objets les plus necessaires pour former une histoire à peu près complète de la peinture allemande et flamande, par les monuments mêmes. Elle est divisée en trois séries principales: la première contient les peintures du XIVe siècle, la seconde celles du XVe, et la troisièm celles du XVIe. Il a paru en 40 livraisons renfermant chacune 3 estampes tirées sur papier de teinte, format grand colombier, au prix de 36 fr. (8 th. 18 gr.) par livraison.

Boisserée Gallery, the beautiful **Photographic Edition:** Sammlung alt- ober- und niederdeutscher Gemälde: eine Auswahl photographischer Nachbildungen aus der ehemaligen Boisserée 'schen Gallerie, jetzt in der Kgl. Pinakothek zu München. Mit einer geschichtlichen Uebersicht der altdeutschen Malerei von J. A. Messmer, a superb volume, atlas 4to. (meas. 16 inches by 12) 88 *very beautiful Photographs, with a text of* 98 *pages, comprising a complete* HISTORY *of* PAINTING *by the* OLD GERMAN MASTERS, *red morocco extra, tooling on sides, gilt edges, an elegant volume, English binding,* (pub. £12. 12*s*) £6. 6*s* 1862

It is needless to add, that no new edition will ever be made, as the cost of the production left to the original publisher very little profit, on his selling the work for £10. 10*s* unbound.

The Photographic Reproductions were made from the Lithographs, and they render all the beauty of expression and softness of the originals.

Botfield's Præfationes et EPISTOLÆ EDITIONIBUS PRINCIPIBUS AUCTORUM VETERUM præpositæ, curante Beriah Botfield.—*Also with the title:* "Prefaces to the first editions of the Greek and Roman Classics and the Sacred Scriptures, London, 1861," 4to. (pub. at £5. 5*s*) *half morocco, uncut,* 25*s* *Cantabr.* 1861

A most important contribution to the Literature of Bibliography. Mr. Botfield's INTRODUCTION, pp. i—lxxvi written in English, conveys to the reader the clearest notion of the History and Uncertainty of the Early *Manuscript* Literature and its transition to the relatively speaking much more critical and certain *Printed* Literature.

"Mr. Burnet has now completed his 'Practical Hints on Painting;' and a more interesting work has never come under our notice. To the professor, these remarks must be invaluable; and the library of no lover of the Fine Arts can henceforth be considered complete without Mr. Burnet's work."—*Literary Gazette.*

"Mr. Burnet writes as an artist on the practice of his art; his illustrations are admirable—an *Essay* in themselves." "We were not certain that Mr. John Burnet's 'Essay on the Education of the Eye' ought to be considered under the head of Fine Arts, but the number, variety, and beauty of the illustrations decided the question."—*Athenæum.*

Catafago's Arabic Dictionary: Arabic-English and English-Arabic **Dictionary**, new and much elarged edition, 2 parts in one stout vol. 8vo. viii and 1096 pp. *cloth, edges cut*, £2. 2*s* 1873

A portable volume, and representing the only Arabic-English and English-Arabic Dictionary now in existence. There is one by Professor Francis W. Newman, very limited in its compass, but which might be expected from the author's name to be a work of surpassing merit. It is, however, based upon a most eccentric system of transliteration, with some new factitious characters, which will be found infinitely more difficult than the simple Semitic alphabet of the Arabs. Few students will venture upon a road beset with artificial difficulties.

Cervantes, Don Quixote, Editio Princeps, 1605-15: PHOTO-TYPOGRAPHIC FACSIMILE OF THE FIRST EDITION. CERVANTES, DON QUIXOTE DE LA MANCHA, **la primera Edicion** reproducida despues de 266 años por la Foto-Tipografia, 2 vols. impl. 8vo. *an exact facsimile of the Editio Princeps, printed by* JUAN DE LA CUESTA, *in two parts at Madrid*, 1605-15, with a third Volume of Annotations, *which is in course of preparation, and will be delivered gratis to the purchasers*, £5. 12*s* *Barcelona*, 1872

This fine reproduction has been executed by means of an entirely new process, the first combination of Photography and Typography, by Colonel Lopez Fabra, an enthusiastic worshipper of Cervantes; who has lavished a fortune in the execution of this costly monument to the greatest literary genius of Spain.

Constable (John, R. A.) English Landscape,

six beautiful mezzotint engravings by David Lucas, oblong folio, 20*s* *ca.* 1840

——— the same, *six plates*, INDIA PROOFS, 35*s* *ca.* 1840

Contents:—

View on the Orwell, with Shipping.	Salisbury Cathedral, *very fine.*
Castle Acre Priory.	Opening of Waterloo Bridge.
View on the River Stour.	Mill near Brighton.

The above is a selection from the works of the great Master of English Landscape whose works are preferred in many instances to those of his rival Turner. The plate after the celebrated picture of Salisbury Cathedral is alone worth the price of the whole collection. The above copies are from the private collection of Sir F. G. Moon, the publisher.

Cruikshank. BOWRING (J.) MINOR MORALS for young people illustrated in Tales and Travels, 3 vols. 12mo. *twelve illustrations by* **George Cruikshank**, *and eight by* HEATH, *bds.* 15*s* *Lond.* 1834-5, *Edin.* 1839

An amusing collection of stories inculcating moral principles, written by the author for the instruction and amusement of his children. A few copies have turned up after Sir John Bowring's death, and being purchased by Mr. Quaritch, an opportunity is offered to collectors of "Cruikshankiana" to secure one of their desiderata.

The Dabistan; or, School of Manners.

Translated from the Persian, with Notes, &c. by D. SHEA, and A. TROYER, 3 vols. 8vo. *cloth, getting scarce*, £2. 2*s* 1844

This is a work of great interest for all Oriental Scholars and Comparative Mythologists.

Sir William Jones describes this work as containing "more recondite learning, more entertaining history, more beautiful poetry, more ingenuity and wit, indecency and blasphemy, than he "ever saw collected in a single volume." It contains an account of the old Persian, the Brahmin, the Buddhist, the Christian, the Sufi, and the Mohammedan religions, with their various sects; as well as a statement of their doctrines. It is most valuable for its exposition of the Zoroastrian creed, as this is based upon ancient Zend works now entirely lost.

FOSSIL FLORA OF GREAT BRITAIN.

Now ready:

A RE-ISSUE, in 3 vols. 8vo. 230 *plates, with text, half morocco, uncut,* £5. 5*s.*

The Fossil Flora of Great Britain;

OR, FIGURES AND DESCRIPTIONS of the VEGETABLE REMAINS found in a Fossil state in this country. By JOHN LINDLEY, F.R.S., L.S., and G.S., Professor of Botany, University College, London; and WILLIAM HUTTON, F.G.S., &c.

To which will be added a Supplementary Volume, containing Figures and Descriptions of all the important additions made to the Fossil Flora of Britain since 1837; together with a Critical Examination of the Species in LINDLEY and HUTTON'S Classic Work, and a Synopsis of all the known Fossil Plants of Britain. By WILLIAM CARRUTHERS, F.R.S., L.S., and G.S., *Keeper of the Botanical Department, British Museum.*

Mr. QUARITCH having recently purchased the copper-plates and copyright of this standard work on the Fossil Plants of Britain, and knowing the extreme rarity of the work,—selling as it does from 8 to 10 guineas a copy,—has resolved to produce a fac-simile re-issue of the work, from the original copper-plates. Notwithstanding the great progress that has been made in Palæontological Botany in Britain during the last thirty-five years, the "Fossil Flora" still remains the principal authority for the species of Extinct British Plants, and its figures and descriptions must always be consulted and quoted by every scientific investigator. To secure the accuracy of the re-issue, Mr. QUARITCH has secured the aid of WM. CARRUTHERS, Esq., of the British Museum, to superintend it. This gentleman has further undertaken the preparation of a SUPPLEMENTARY VOLUME, to contain exact delineations, by means of woodcuts, and not less than 40 *plates,* of the Discoveries in Fossil Botany since 1837; together with Descriptions and a Synopsis, which will bring the whole work up to the state of the Science at the present day. The publication of the SUPPLEMENTARY VOLUME will proceed immediately on the completion of the original work,—and it will be supplementary not only to the present re-issue, but also to the original edition of LINDLEY & HUTTON'S great work.

Day's (Francis) Fishes of Malabar, royal 4to. *with* 20 *plates,* (pub. at £2. 2*s*) *half morocco,* 18*s* 1865

—— The whole edition consists of only 250 copies, a small portion of them is issued with COLOURED PLATES, price, 1 vol. royal 4to. *hf. morocco extra, gilt edges, rare,* £4. 4*s* 1865

This work contains full descriptions of every species collected by the Author in or near Cochin, as well as of those recorded by other observers as from the Malabar Coast of India. The species most adapted for eating, salting, or the manufacture of isinglass or fish oils are pointed out, as well as those which are indigestible or poisonous when employed as human food, or inflict irritating or venemous wounds.

Fowler (Wm.) Coloured Engravings of Roman Pavements, Stained Glass, Monastic Buildings, Fonts, Brasses, etc. an Extraordinary and Unique Collection of these Splendid Productions, consisting of ONE HUNDRED AND FOURTEEN in number, being THE WHOLE he ever executed, and including many PRIVATELY ISSUED, *and of extreme rarity*, with a fine PORTRAIT (4to.) and an Original AUTOGRAPH of FOWLER, all mounted on drawing boards. Also a Collection of ALL the Original DESCRIPTIVE PROSPECTUSES of the Plates which were issued, *in Three large Atlas Portfolios* made for the purpose, £70. *Winterton*, 1796-1802

This MAGNIFICENT WORK was published by subscription, in single prints, issued at long intervals, several at 31*s* 6*d* each. Sir Joseph Banks, upon an occasion of addressing the Society of Antiquaries, said, in reference to the representations of Mosaic Pavements in the above work, "Others have shown us what they thought these remains ought to have been, but Fowler has shewn us what they are, and this is what we want." For graphic truthfulness and effect, these representations have never been equalled. The Prospectuses are very interesting, and are now great rarities.

The ingenious Mr. Fowler was originally a journeyman carpenter, of patient and persevering habits: the difficulties he had to encounter in executing the present work were almost insurmountable. The work, which is scrupulously correct in all its features, is entirely his own; the drawing, the engraving, the preparation of the colours, and even the making of the paper, (for he could get no paper-maker to undertake it) are all the work of his own hands. Not forty copies were ever completed.

J. HITTORFF, on the Arabesques of the Ancients, as compared with those of Raphael and his School—together 2 vols. (pub. £8. 8*s*) *hf. bd. red morocco, gilt edges*, £7. 7*s* 1854

This magnificent work is no less valuable to the *Architect* than to the *Painter*. It does not profess (says the *Quarterly Review* in an elaborate article) to exhibit fresh decorative painting in that highest walk chosen by Michael Angelo and Raffaelle (except as a handmaid), but as a *purely decorative Art and subservient to Architecture*. Owing its very existence to the exigencies of the sovereign art, and deriving its appropriate locality, scale and effect, from the edifice, it no less assists the *Architecture*, in return, by its arabesques and other tasteful accessories.

This work is, without comparison, the most useful of all the Fund Publications. It stands in the same relation to Oriental Literature as *Watts' Bibliotheca* and *Graesse's Tresor* do to that of the Western World. The arrangement is alphabetic, according to the names of the *works*, (an INDEX OF AUTHORS being added at the end), and comprises descriptions of above 15,000 books in Arabic, Persian, and Turkish ; with statements of the date when the writers flourished, and many other useful particulars.

Mustafá ben Abdallah Kátib Tchelebî, called Hadjî Khalfeh, was a learned Turk, who, early in the seventeenth century, held a high official position under Amurath IV. At a later period, he collected a large library, and wrote several works, chiefly historical ; but the greatest monument of his immense industry and erudition remains in the Bibliographical Lexicon, (*Kashf uz-Zanun.*) The *Bibliothèque* of D'Herbelot consists principally of an abstract from defective texts of the work of Hadjî Khalfeh ; while Flügel's edition is based upon the best copies in existence, which contain the corrections and additions of later writers.

This was the first general Biographical Dictionary in the Arabic language; and it remains a wonderful testimony to the learning, genius, and industry of the author. The biographies are arranged in alphabetical order of names, and comprise distinguished individuals of every sect and nation in Islam, down to the thirteenth century, when Ibn Khallikan flourished. Moslem critics have blamed him for enlarging on the lives of poets and historical writers, at the expense of the learned doctors of law; but that very circumstance renders his book all the more valuable to the European reader.

—— the same, 2 vols. impl. folio, **a picked presentation copy**, *with* **70 coloured plates**, *cloth*, £16. 16*s* 1846-50

PRINTED FOR PRIVATE DISTRIBUTION amongst the friends of the late Earl of Derby, to whose zeal for Natural History these volumes will remain a lasting monument. The editorship of Dr. Gray is a further guarantee for the excellence of this work, which is indeed the most correct and the most beautiful, especially as far as the MAMMALS are concerned, printed in Europe. The few single volumes which have at rare intervals turned up at sales, have fetched high prices.

To all Public Libraries this work is necessary, as the plates present most accurate delineations of rare Birds and Mammals, made by first-rate Artists from living specimens. The Knowsley Menagerie forms a necessary complement to the great work of Cuvier et Geoffroy St. Hilaire, "Histoire naturelle des Mammifères, 3 vols. folio, 1824-35," in which the plates and the text are inferior in beauty and accuracy to the above.

Colonel Leake's Numismata Hellenica, with SUPPLEMENT and APPENDIX, completing a descriptive Catalogue of Twelve Thousand Greek Coins, with Notes Geographical and Historical, Map and Index, 4to. *cloth, scarce,* £3. 3*s* 1856

——— the SUPPLEMENT, **separately,** 4to. 189 *pp. and key plate to sizes of Coins, cloth,* 21*s* 1859

In the "Numismata Hellenica" not only is every Greek coin separately registered and described, but its bearing upon Greek history and its connection with the literature, or the mythology, or the palæography, or the political and social condition, or the geography of ancient Greece, are explained in a series of notes extending over the whole work. It was published in 1854, and a supplement came out in 1859, only a few weeks before Colonel Leake's death. By the appearance of these volumes the often repeated imputation upon English scholars, from the days of Haym at the beginning of the last century, to those of Millingen in the present, of having done little or nothing in the department of numismatic literature, and of being content to leave to foreigners the task of rendering a collection of coins available for purposes of study was at once removed: and it has been remarked by no mean authority that if the author had never written anything besides this work he would have earned for himself a high reputation among the literati of Europe.

Leake's Topography of Athens, with some remarks on its Antiquities, second edition, 2 vols. 8vo. 11 *maps and plates,* (pub. at £1. 10*s*) *cloth,* 18*s* 1841

A work of unsurpassed learning and classical scholarship.

Leake, on some disputed questions in Ancient Geography, 8vo. *map of Africa,* (pub. at 6*s* 6*d*) *cloth,* 4*s* 6*d* 1857

This work is the necessary adjunct to Dr. Smith's Dictionary of Greek and Roman Geography.

——— a SET OF THE ABOVE, 8 vols. (pub. at £5. 11*s* 6*d*) *cloth,* £2. 16*s* 1835-57

Colonel Leake's works on Greece abound in valuable observations on the present state of Greece, and are accompanied by constant references to the writers of the Classical period. Colonel Leake spent nearly 30 years of his Life in his learned investigations. A set of Leake's works will form an appropriate School-prize.

Leake (Lt. Col. W. M.) **Memoir** of his Life and Writings by **J. H. Marsden,** 4to. *cloth, uniform with the Numismata Hellenica,* 5*s* 1864

Landseer (T.) Monkeyana, or Men in Miniature, impl. 4to. 25 *humourous engravings,* INDIA PROOFS, (pub. £4. 4*s*) *hf. bound, red morocco, gilt tops,* £2. 2*s* 1827

This amusing series of engravings, while full of humour and spirit, may be considered as an historical work, shewing the manners, customs, vices and follies of the *beau monde* in the time of the "first gentleman in Europe." Low life is also represented in such scenes as "Billingsgate," "Pug-ilists" and "Wapping;" also characteristic studies. The work has hitherto been scarce, but a few PROOF copies were found in the private collection of the Publisher, the late Sir F. G. Moon, Bart.

——— the same, LARGE PAPER, folio, INDIA PROOFS BEFORE LETTERS, 25 *plates, and a vignette on the leaf of Contents, the selected copy of Sir F. G. Moon, the publisher,* (pub. at £6. 6*s*) *unbound, rare,* £3. 3*s* 1827

Makamat; or, Rhetorical Anecdotes of Abu'l Kasem al Hariri, of Basra, translated into English Verse and Prose; and illustrated with Annotations, by the Rev. T. PRESTON, 8vo. *cloth,* reduced from 20*s* to 12*s* 1850

"The most classical work in Arabic literature—a masterpiece of elegance and refinement." This translation, by the freedom of its rendering and the easiness of its style, will be more acceptable to an European reader than any literal version; while the frequent notes recall to the more studious reader the subtler points of the text as verbally followed. Mr. Preston has been careful not to fall into the error of Rückert, who made an imitation rather than a translation.

There has hitherto been no comprehensive English work on this extremely attractive subject,—"the Jewish Coinage," which forms a very important PILLAR of the HISTORICAL TRUTH of the BIBLE. Manx Dictionary: KELLY'S (Dr. John) MANX DICTIONARY, in 2 parts: I. Manx and English; II. English and Manx: Fockleyrn Maninagh as Baarlagh, edited by the Rev. W. Gill, 2 vols. in 1, 8vo. viii. and 432 *pp. double columns*, (pub. at 21*s*) *cloth*, 10*s* *Douglas, Manx Society*, 1866

The Council of the Manx Society repose full confidence in the judgment of the Rev. Mr. Gill. As the authorised Translator of the Acts of Tynwald into Manx, he holds the highest place of authority as to the living Manx language. He has had long experience in preaching, and in the other duties of a Manx Parish Clergyman. As the Editor of their edition of Dr. Kelly's Manx Grammar, he has already placed the Manx Society in his debt. And now, with such coadjutors as Messrs. Clarke and Moseley, Mr. Gill's edition of Dr. Kelly's great work, must command the confidence of all Manxmen, and be an abiding monument of the final stage of the fast-disappearing dialect of the Celtic language, indigenous to the Isle of Man.

MAMMALS, with a copious synonymic List of Species, stout 4to. 103 coloured plates and maps, *shewing the geographical distribution of each separate family*, pub. £3. 3*s*; *cloth*, 30*s* 1866

"A book of such solid and sterling merit that we feel no apology to be due to our reader, for bringing to their notice what cannot now be called a new publication. The great breadth of view adopted by the writer for his inquiry, the extent of his reading and research, and the width together with the caution of his generalizations, would remind us of that patient and persistent toil which we associate in general with the plodding genius of Germany, were it not for that more calm and wary tone of speculation which marks the less imaginative intellect of the North Briton. The hardy fibre of his national temperament is well displayed in his laborious heaping together of the results of wide travel and exploration, as well as in the shrewd, methodical, and well-sustained conclusions which he proceeds to build up on these data. It is no small credit to him to have succeeded in producing a work at once so full and comprehensive in its treatment of these multifarious heads of inquiry, and so clear and readable as regards its method, its argument, and its style."—*Sat. Review*, 28*th Nov.* 1868.

A VALUABLE ILLUMINATED MANUSCRIPT OF THE 17TH CENTURY:

"The Missal" of Estevao Gonçalves, faithfully copied by means of Chromo-Lithography, and dedicated to His Majesty DOM FERDINAND II. of Portugal.

The Missal will be delivered to Subscribers in twelve Parts, each part £1. 13*s* 4*d*—the Missal complete, £20. After closing the Subscription, the price will be raised to £26. One part will be published every quarter.

The most admirable and perfect specimens in miniature adorn every page of this Missal, a work so beautifully and artistically wrought, that it has deservedly gained for its author the most distinguished rank among the Miniature Painters of the early part of the 17th Century.

Too much praise cannot be given to Estevaô Gonçalves, whose rich and delicate illumination of this Missal is considered a Masterpiece of Art, and which any nation would reckon with pleasure amongst its proudest monuments.

Every one who has attentively examined this Missal, has been much surprised at the marvellous beauty and astonishing variety of the colouring, and the superb Miniatures with which it is ornamented. Several artists, whose opinions on such matters are unquestionable, have declared it to be the best illuminated work that ever existed.

Celebrated writers, who have described the works of Portuguese painters, speak of it in the highest terms, and unanimously assert that Estevaô Gonçalves was an artist of the first class, whose work well deserves the praise it has so justly obtained.

The majority of the specimens from which the drawings have been taken are to be found in the private collections of the authors, but the Museums of Berlin, Paris and Neuchatel and in England the British Museum, the Norfolk and Norwich Museum and the Derby Museum of Liverpool have all kindly lent specimens (many of them types) for illustration, and thus added materially to the value of the drawings in a scientific point of view.

FIFTEEN copies have been printed on LARGE PAPER, royal folio, to match the Large Paper issues of Temminck and Des Murs. The subscription price of these copies, is, each part, £2. 2*s*.

Odontography; or, a Treatise on the COMPARATIVE ANATOMY of the TEETH; their physical relations, mode of development, and microscopic structure in the VERTEBRATE ANIMALS, one vol. text, and *Atlas containing* 168 *beautiful plates, engraved with marvellous minuteness,* (pub. at £5. 5*s*) *hf. bd. morocco,* ☞ £2. 2*s* 1840-45

One of the great modern productions which mark the present wonderful advance of scientific knowledge. Dr. Owen stands on a pedestal of eminence which is rarely attained.

"The present work on the Comparative Anatomy and Physiology of the Teeth, considers—I. The Teeth in their relation to the Osseous System, and the intimate structure of their component tissues; II. The Teeth, regarded as parts of the Digestive System, and, besides their structure, their various configurations and proportions, in subserviency to the habits and food of the different species; III. The development of the Teeth considered in connection with that of the epidermal appendages of the Tegumentary System, in consequence of a close analogy in the form, structure, temporary duration, and reproduction of the formative matrix."—*Preface.*

OWEN JONES' Examples of CHINESE ORNAMENT, impl. 4to. 100 *beautiful plates in rich colours, executed in chromolithography, comprising nearly* 1000 *objects in the South Kensington Museum and other collections* 1867

The companion or second Series to the standard work, "The Grammar of Ornament. Only a small number of copies were printed, and NO NEW EDITION WILL EVER APPEAR.

"No portion of the work before us is more important than the aptitude of the specimens selected to represent Chinese design, not needfully at its best, so much as its most characteristic and serviceable places. . . . The scope of judgment on about two hundred reproductions enables us to repeat our expressions of admiration for the manner in which the designs have been copied; whether as regards colour or drawing the transcripts from enamels are nearly as good as their originals. Many of the enamels, which are obviously wrought under very different inspirations and in varied modes of design, are decorative masterpieces in form as well as in colour.

"The splendid pattern-book before us will, in containing so many fine examples of good Art, be extremely valuable to the artist, decorator, oriental student and lover of the beautiful."—*Athenæum, Nov.* 16, 1867.

Rafaelle's Bible Illustrations: THE FRESCOES OF RAPHAEL drawn from the originals in the VATICAN by N. CONSONI under the direction of L. GRUNER, oblong royal folio, 52 *beautiful large lithographic plates, printed in tints, hf. bound, cloth sides, gilt edges*, £3. 3*s* 1852

For the convenience of Artists and Art-Lovers separate plates will be supplied at 2*s* each.

The complete Edition of this Work, consisting of copies of the celebrated Frescoes of Raphael, from the Originals in the Corridor of the Vatican, called "La Loggia di Rafaelle," is now offered to the English public. The ENTIRE SERIES of FIFTY-TWO FRESCOES is here represented;—a Selection only of Forty plates having been previously issued.

The Work now offered in a complete form to the Public has been issued from the Press at various intervals, in Numbers containing Six Plates each. It was undertaken at first by James R. Hope Scott, Esq., D.C.L., Q.C., but the Plates were from the beginning prepared under the superintendence of Professor Gruner. Mr. Hope Scott, however, did not carry the Work further than the first five Numbers, and it was then taken up, and is now brought to a conclusion, by Mr. Gruner alone.

The Prints have been prepared under Mr. Gruner's superintendence by Sigr. N. Consoni, one of the most distinguished draughtsmen in Rome, and no pains have been spared to exhibit in them the grand simplicity of the Originals. The large size of the Plates has enabled the Artist to give the broad outlines of the Originals without omitting the finer lines which so peculiarly characterize them. The Prints have been lithographed, in such a style, however, as to resemble Engravings on wood, in order to avoid the greatly increased expense which the latter would have involved; but any disadvantages connected with this have been more than counterbalanced by the greater power which, on the plan adopted, the Artist has been enabled himself to exercise over the Plates.

Shaw's (Henry) Handbook of the Art of Illumination

as practised during the Middle Ages, folio, 16 *large separate plates of Miniatures, with Initial Letters and Ornaments, all executed in facsimile after the designs of illuminated MSS. in the very finest style of wood-engraving*, (pub. at £5. 5*s*) *hf. morocco, gilt top, uncut*, 36*s* 1866

The taste with which the examples that adorn this beautiful book were selected, is quite equalled by the rare knowledge displayed in the accompanying text, as well as by the execution of the illustrations, which may be looked upon as the very perfection of the Art of Wood-Engraving. Such beauty and delicacy of workmanship have never before been seen; and the result is perhaps superior to that of the best engravings upon metal, the effect even of colour being produced by it. This is an important matter in a work on the Art of Illumination.

Shirley (Evelyn Philip) Stemmata Shirleiana;

Or the ANNALS OF THE SHIRLEY FAMILY, LORDS OF NETHER ETINDON IN THE COUNTY OF WARWICK, and of SHIRLEY IN THE COUNTY OF DERBY. SECOND EDITION, corrected and enlarged, 4to. pp. xii. *and* 436, *with* 43 *fine woodcuts of Views, Monumental Antiquities, Seals, Facsimile Autographs, etc., as well as numerous smaller engravings of escutcheons*, bds. £3. 3*s* 1873

Only 250 copies were printed, and of these very few will be for sale; it may therefore be safely predicted that the present price will soon be doubled. The first edition has been usually sold for 12 guineas.

This record of one of the great families that form the "OLD NOBILITY" OF ENGLAND, possesses a wider historical interest than might be gathered from its frontispiece. The origin of the house can be traced by existing documents to a period more remote than the life of Sewallis de Scyrle who flourished towards the end of the twelfth century. At all times since then, its members have held a prominent position amongst the aristocracy of the realm, and have taken part in most of the great events of English History.

The compilation of this volume has been thoroughly well executed, and is highly creditable as a result of conscientious study and long antiquarian research, on the part of the author, whose scholarly accomplishments and fitness for the work are universally recognized.

Antonio gives 1612 as the date of the oldest Romancero del Cid. The oldest I possess is of Pamplona (1706, 18mo.); but the Madrid edition (1818, 18mo.), the Frankfort (1828, 12mo.), and the collection in Duran....are more complete."

"So elaborate, costly, and suggestive a work as that which has been produced by Mr. J. B. Waring, with the aid of Mr. Vincent Brooks, deserves to be set prominently before those who are interested in the subject of it. To produce a work by Chromolithography, containing forty-one large folio plates, blazing with colour, on paper *de luxe*, solidly bound, involves no small risk financially; and the effort, when worthily made, as this is, should be supported by those who concern themselves with the arts of the country. For years our architecture has been bald and lifeless; restricted to ill-understood imitations, and permitted no aid from her children arts. The forty-one plates in the work before us are appropriated to STAINED GLASS, eight; FRESCO ORNAMENTS and FIGURES, eight; WOOD INLAY, five; and MARBLE ENAMEL INLAY, twenty." *Builder.*

THE Work now announced as ready for publication may be regarded as constituting the First Chapter of a History of the Fine Arts in this Kingdom, extending from the Roman occupation of Great Britain to the Norman Conquest.

By most persons this "dark age," as it has been termed, will scarcely be supposed capable of affording materials for such a history; and indeed, with the exception of a very few examples given by Strutt, Astle, and Shaw, no opportunity had been afforded to the public of judging of the marvellous beauty and excessive intricacy of the ornamentation and designs of Anglo-Saxon and Irish Manuscripts, until the publication of my "Palæographia Sacra Pictoria," in which I devoted many plates to these marvels of Art.

The study of these Manuscripts has, indeed, brought out the singular fact, at a period when the Fine Arts may be said to have been almost extinct in Italy and other parts of the Continent——namely, from the fifth to the end of the eighth century—a style of art had been established, cultivated, and brought to a wonderful state of perfection in these islands, absolutely distinct from that of all other parts of the civilized world, and which was adopted and imitated in the schools founded on the Continent by Charlemagne, as well as in the monastic establishments founded or visited by Anglo-Saxon and Irish Missionaries, many of which subsequently became the most famous seats of learning.

On this subject M. Digby Wyatt, one of the most accomplished of living artists, observes, "*In delicacy of handling, and minute, but faultless execution, the whole range of palæography offers nothing comparable to these early Irish Mauscripts, and those produced in the same style in England. When in Dublin some years ago, I had the opportunity of studying very carefully the most marvellous of them all—'The Book of Kells;' some of the ornaments of which I attempted to copy, but broke down in despair. Of this work Mr. Westwood examined the pages, as I did, for hours together, without ever detecting a false line or irregular interlacement.*"

From this fine Manuscript four pages are copied, whilst the Libraries of London, Lambeth, Oxford, Cambridge, Durham, Lichfield, Salisbury, Dublin, Paris, Rouen, Boulogne, St. Gall, Copenhagen, Stockholm, Utrecht, St. Petersburgh, &c. have been laid under contribution, and have afforded materials for illustration; amongst which are numerous examples of the later Anglo-Saxon Manuscripts, in which an entirely distinct, and equally national style of ornamentation, of a very gorgeous character, was developed in the school of St. Ethelwold.

The fac-similes from the original Manuscripts have been executed by myself with the most scrupulous attention to precision of detail; the majority having, in fact, been made with the assistance of a magnifying glass. This statement will, it is hoped, be a sufficient guarantee for the truthfulness of the Plates contained in the work. The fac-similes have been re-produced under my own eye, and the utmost care has been bestowed upon the Chromo-lithographic printing:

Westwood's Anglo-Saxon and Irish Miniatures—*continued.*

to that the Work may be regarded as a small-paper rival of the grand, but enormously expensive work, of Count Bastard on the Miniatures and Ornaments of Early French Manuscripts.

An accomplished Art Critic, in speaking of Early Keltic Art, said in "The Times" of September 3, 1867 :—

"The glorious illuminations of the Irish MSS., the most exquisitely beautiful designs with which religious art, so prolific in its creations, has ever enriched the world! It is that strangely complicated, interlacing and lacertine knot-work pattern which is so frequently found upon the crosses of the Anglo-Saxon period, and expecially common within the kingdom of Northumbria. Introduced into Ireland most probably with Christianity, it there received a very high development by being engrafted upon the native Keltic stock, and thence spread with Irish and Christian teaching, not only to Scotland and the North of England, but to still more distant parts of Europe."

Oxford, February, 1868. J. O. WESTWOOD.

Marquis of Worcester's Century of Inventions: the Life, Times, and Scientific Labours of the second Marquis of Worcester; to which is added a Reprint of the Century of Inventions, 1663, with a Commentary thereon, by HENRY DIRCKS, C.E. 1 vol. 8vo. 650 *pp. portraits and woodcuts*, (pub. at 24*s*) *cloth*, 5*s* 1865

"Mr. Dircks has produced a work of singular merit; the historical part is full, accurate, well arranged, bristling with facts and correspondence, the only authentic memorial in existence of one of the most remarkable men of a remarkable age. In the mechanical and scientific part Mr. Dircks is professedly at home, his descriptions are perspicuous, and his judgment of the merits of the different articles in the Century of great authority. It is in many respects a unique book, and must have a place in every complete library."—*Daily News*, April 13, 1866.

——— CLEGHORN'S Index, 4to. *cloth, rare*, £2. 2*s* *Madras*, 1856

"A most important work, with 2101 invaluable representations of Indian Plants."
H. CLEGHORN.

"The Volumes form the most important contributions, not only to Botany, but to Natural Science, which have ever been published in India, and *they have been of the greatest service to us throughout our labours*. It is admitted that Dr. Wight has accomplished a great work, which is as essential to the student of the Indian Flora, as Sowerby's English Botany is in Britain."

Privately printed, 1869

The Edition has been limited to 150 copies, and prompt application is necessary, as only 20 copies remain for sale. The small number printed has added materially to the price, but it will on that account very soon become *a rare book*. Great care has been bestowed on the Collation of the Books, Tracts, etc., down to the present period. The work is handsomely printed and illustrated, so as to make it desirable and useful to the Collector of a Yorkshire Library.

Yorkshire Tokens issued in the Seventeenth, Eighteenth, and Nineteenth Centuries, by Tradesmen, Overseers of the Poor, etc. in Gold, Silver, Brass, and Copper: also the Seals of all the Corporations in that County; by WILLIAM BOYNE, F.S.A. 4to. 62 *pp. and* 15 *plates, with an Addenda of* 8 *pp. and* 2 *plates, cloth*, 20*s*

BY

BERNARD QUARITCH,

15 PICCADILLY, LONDON.

Any Gentleman having some of the books of this List for sale at a fair value, will oblige by stating to Mr. Quaritch their titles, dates, condition and price. ☞ *Offers of Books* WITHOUT *a price, are declined; and need* not *be made. When Owners of Books offer them above the market value, they receive no answer.*

On désire acheter les Livres suivants. Les personnes qui en auraient à vendre sont priés de faire savoir à Mr. Quaritch le titre exact, la condition et le prix de chaque ouvrage proposé.

Old Libraries bought for Cash at the maximum market value, without any deductions or delays.

The danger of selling by auction, — rather than disposing of Libraries to respectable dealers—has been pointed out by a leading article in the "Times," Sept. 26, 1866, from which the following is an extract:

"An auction is the most unfair of all sales, and is the most ruinous method of disposing of any sort of goods. As matters are now managed, no one will resort to an auction who can dispose of his goods by any other means."

☞ A genuine copy wanted; not the one manufactured this century in Italy, and offered as No. 381 in the Bernardoni sale at Sotheby's, August 10, 1871. This very curious copy had the two large plates printed from modern re-engraved coppers, and the printed matter on the back in facsimile by the pen. The third (smaller) plate is genuine in that copy.
